Weak and Lower Figures at the Opening on New York 'Change Saturday.

General Electric and Chicago Gas Made to Suffer-At Indianapolis Wheat Has Dropped from 57c to 53c Since Monday.

THE BOND MARKET.

Railway Issues Were Active and Heavy, Half Day Sales Being \$508,000. At New York, Saturday, money on call

was nominally 4 per cent. Prime mercantile paper, 8@12 per cent. Sterling exchange was irregular, with actual busines in bankers' bills at \$1.80 @4.81 for sixty days, and \$4.824 @4.83 for

Silver certificates were neglected and closed at 70 sc. London bar silver was

At the opening of business at the New

York Stock Exchange, Saturday, the market was weak and lower. General Electric and Chicago Gas were the special features. The former opened at 30, a decline of 54 per cent., as compared with Friday's closing figures. The break was due to forced sales and at the decline there was some good buying and the stock railed quickly to 39, receded to 3012 and closed at 88. Chicago Gas was hammered down seven points, to 40, recovered to 48%, receded to 41% and closed at 42%. There was some dispute about the opening price, the stock having sold simultaneously at 44 and 41. Rumors of a bond issue to pay for construction and that the company would pass its dividend accounts for the break. Officials here denied the truth of the reports. The general market displayed weakness, the bears having made the most of the fact that savings banks would take advantage of the time clause. The conservative element of the street on the other hand commended the action of the presidents. The decline outside of Chicago Gas and General Electric ranged from 1 to 41/2 per cent. The greatest losses were in Delaware & Hudson, Lackawanna, the grangers, Missouri Pacific, Manhattan, Western Union, Lake Shore and Lonisville & Nashville. The low prices attracted purchasers, and a recovery of 's to 1 per cent. followed. The trading in odd lots was again on a heavy scale, and was quite a feature of the market. The bank statement proved unfavorable, as expected. and the market eased off again. Among the specialties Pullman broke 10, to 140, and railied to 142, and Evansville & Terre Haute dropped 8, to 82; Susquehanna & Western preferred,

Railway bonds were active and heavy. The sales were \$508,000. Baltimore & Ohio Bouthwestern firsts fell 5%, to 102; Wabash seconds, 3%, to 60; Wabash firsts dropped 8, to 94, and recovered to 911/2. Government bonds were steady, and State bonds dull. Closing quotations were:

Four per cent. reg. 10812 Lous. & Nash ..... 5158 Four per ct. coup 108½ L. & New Albany. 9¼
Pacine 6's of '95. 102 Missouri Pacine. 18
Atchison. 13½ N. J. Central. 88 Lead Trust...... 1912 Western Union.... 683

Legal tenders, decrease...... 3,898,500 Deposits, decrease...... 8,299,100 The banks are now \$4,031,675 below the

following changes:

The New York bank statement shows the

requirements of the twenty-five-per-cent.

LOCAL GRAIN AND PRODUCE.

The Trade of the Week Was Disappointing, Prices Being Unsettled.

On South Meridan street trade was slow all the week, even the grocers reporting trade light. The bank failures, doubtless, more or less, affected business. A number of articles in the list that come into daily consumption are lower than a week ago. Ponitry, cabbages, onions, apples, eggs, tomatoes and melons all range lower. Apples, peaches and tomatoes are all rotting badly, which makes a large per cent, of the strivals unsatable. Dry goods, boot and shoe and hardware merchants all report

trane quiet and prices ruling easter. The local grain market is fairly active. wheat still dropping in price. Corn, several grades, advanced yesterday &c, wheat dropping to 53c, against 57c on Monday last. Oats are steady, receipts of the new erop still light. Track bids yesterday

NO BOTTOM YET TO WHEAT

Chicago Cash Article Sold as Low as 564c While September Was at 604c.

The Liquidating Spirit Was Rampant from the Minute the Board Opened and Continued Almost Unabated All Day.

TRADING AT CHICAGO.

Corn Firmer Than Wheat, with Nothing New in Provisions.

CHICAGO, July 29.—The liquidation of wheat, which has been so much of a feature during the last few days, was continued this morning. Prices to-day again beat all records for cheapness, September solling off at one time 24c from the ciose last night, and December went 2420 lower. Everybody seemed to have wheat for sale. As the decline went on, margine became exhausted, and many trades were closed on that account. Cash sold as low as 5640, September 604c, and December 67%c. Near the close, however, shorts began to cover freely and large export purchases were reported which caused a rally of 140 from the low point. All the conditions outside of monetary matters were favorable, with big exports for the week-1,365,000 bushels -the big export purchases here and at New York. Some of the trust securities on the New York Stock Exchange started panicky, and that gave the wheat market its direction at the opening. The start in the pit was wild, a few purchasing orders were filled at the start at 63 so for September in one part of the pit, while in another group of traders it was being wildly offered down 4c at a time, from 630 to 61%c, before buying became at all general. The price dropped 1%c in a few seconds, with little fuss or excitement attending the collapse in prices. Holders had evidently made up their minds to get out of their long lines of wheat, and were consequently prepared for the inevi table sacrifice. There was some buying on the first decline, which caused a reaction to 62'sc, but fresh selling orders caught at such a chance, and the price again went down fore every fresh offer to sell. Not until the price was groveling around 6012c and even 60 4c for a fraction of a second, was any permanent recovery possible. September reacted and closed at 61 4c; December started at 70 2c; dropped to 67%c, and closed firm at 60c. At the bottom of the day's range there was no trading in July, but it was nominally 4c discount at 564c. It closed at 57 sc. The buoyancy towards the end was due to an active export demand both here and at New York. At the latter city forty-eight boatloads were worked and here 265,000 bushels of No. 2 spring was engaged for direct shipment to Liverpool. The high price of New York Exchange prevented further engagements here. Of the local receipts of 146 cars, eighty-seven were new wheat. Export clearances from both coasts for the week were 4,363,000 bushels, compared with 5,077,-000 bushels the week before. Minneapolis

The corn market was remarkably firm considering the weakness in wheat. At the close to-day there is so decline. Business was moderately active and there was good inquiry for export both here and at New York. Local receipts were 417 cars. September started at 3840, dropped to 37%c, and reacted to 38%c, at which it

and Duluth receipts were 171 cars, com-

pared with 225 on the corresponding week

Trading in oats was light and scattered. The market tell oft slightly in sympathy with wheat and corn, and the rather heavy receipts also gave the market some weakness. It firmed up again toward the close and ended at the top price of the day. Shorts were buying rather freely early. September opened 235sc, sold down to 235sc and up again to 23%c. May opened at 284 c, sold up to 284se and down to 28c, closing at 25'sc. Local receipts, 205 cars. The provision market repeated yesterday's performance. The clique held September lard at 9.700 and packers sold some ribs. Ribs were weak and closed .050 lower. Hog receipts were light, numbering 8,000,

but the market was quoted easy. Estimated receipts for Monday are: Wheat, 165 cars; corn, 510 cars; oats, 205 cars; hogs, 20,000. A moderate demand for freights prevailed, with a fair supply of boats on the market. Rates were reported steady on the basis of 1@14c for corn and 14@14c for wheat to Buffalo. Outside figures for small lots. Leading futures ranged

DETROIT. July 29 .- The market closed weak. Wheat-No. 1 white, 5712c; No. 2 red, cash, 574c; No. 3 red, 55c; August, 574c; September, 611/2c. Corn-No. 2, cash, 40c. Oats No. 2 white, 3342c. Receipts-Wheat, 66,-000 bn; corn, none; oats, 10,000 bn.

Dry Goods. NEW YORK, July 29 .- In dry goods the shutting down of many mills which began to-day to continue through the coming month at least, causes more inquiry for goods. Now that the production will be adjusted to consumption there is reviving confidence as against any demoralization of the market. Buyers are likely therefore to operate whenever and to whatever extent circumstances may justify them. Conservatism will not be abandoned. Brown cottons are very slow, but bleached goods continue well sold up. Colored fabrics will be most affected by the shut-down. FALL RIVER, Mass., July 29.-The following

s the print cloth statement for the week: Production, 180,000; deliveries, 123,000; stock, 293,000; sales, \$4,000; spots, 8,000; futures, 76,000. Price. 23c for 64x64; market dull.

NEW YORK. July 29 .- The petroleum market was neglected. Pennsylvania oil, spot sales none; August options, sales none; 57% asked. Lima otl, sales none. Total sales, none. Turpentine dull and easy at 2612027c.

PITTSBURG, July 29.—The oil market was dull and lower; closed at 55%c. SAVANNAH, July 29. - Spirits of turpentine steady at 24%c. Rosin firm. CLEVELAND, July 29 .- Petroleum slow and unchanged. Metals.

NEW YORK, July 29.—Pig from steady, quiet; American, \$12.75@15.50. Copper quiet; lake, 10c. Lead steady; domestic, 3.40c. Tin steady; straits, 18.90c bid, 19c asked; plates steady and quiet; spelter steady; domestic, ST. LOUIS, July 29.-Lead dull at 3.050 asked; spelter at 3.80c asked.

Transfers, 14; consideration.....\$18,695.00 A Good Farm Team. The Industrialist.

Farmers too often sell the best horses and content themselves with any sort of a team on the farm as being of little consequence, and too often even sell good grade mares that would raise a fine colt and do better than any other horse on the farm. But the buyer offers a good price and the best producer on the farm is sold.

English and French farmers have pure bred draft mares to profitably do the farm work and raise a colt every year that pays the rent. Mr. McClain, at a Kaneas farmers' institute, advocated breeding high class horses and having good teams on the

farm. Hesaid: "It is impossible to estimate the difference between a good and a poor team on the farm. One means success, the other means failure. I am asked to say which breed of horses I consider the most promising to raise for sale. I suppose, of course, they mean for the farmers in this section. engaged as they are, in profitable farming. I would say that if one-half of the farmers here kept an account and knew just what their horses cost them when grown and ready to work, they would find that they have cost them more than they could be sold for. I would say, for most farmers, to raise (if for sale) draft horses. My reasons are the following:

"First-Early maturity. Draft horses can be gotten on the market one year younger than a warm-blooded horse. "Second-They are easily broken. It takes less time to fit them for market. They do not require such perfect conditions as a driving horse.

"Third-If by chance they have a slight blemish, they will pass muster where such a blemish would untit a driver for market "Fourth-It doesn't require any more feed to raise a big draft horse than it does a smooth, warm-blooded horse.

"Now, to sum up, I would say this: If you raise horses at all raise good ones of some pure breed. I am anxious that our neighborhood should excel in everything. I am in favor of special farming. I think one-half of us ought to quit raising horses. Let those who don't, raise a higher breed of horses and raise them better and worth much more money than those we are snow raising. The mongrel, mixed up breeds we have been raising must go. They ought to have gone twenty years ago. The little spiinter shinned drivers -so-called warm blood - are of no value. If you raise drivers, raise horses sixteen hands high, weighing 1,100 to 1,300 pounds. that can draw two persons in a buggy six to eight miles an hour without oppressing them. Life is too short and business too pressing to go plodding along the road after a plug horse."

The crazy quilt mania is said to have broken out in a new torm. Young women with a fondness for working on scraps now save and beg bits of lace and embroidery. join them in the "crazy" style, and when they have made a piece big enough for a pillow sham, trim it with a lace ruille.

An impure, damp kitchen sink closet can be thoroughly dried by pleeing a lighted kerosene lamp in the inside and then closing the door for two or three hours. Such an unhealthy nuisance can usually be abated by boring several inch augur holes through the door and free end. THE

DAILY.

AND

SUNDAY

WEEKLY

The Journal's price for daily is only 15 cents a week, and it has a very wide circulation, reaching a large number of people hitherto unable to afford the luxury of a first-class daily paper. Reports from agents and subscribers indicate a continued increase, and that what used to be regarded as a luxury has become a necessity. The new readers not only remain, but they are constantly increasing.

It is the purpose of the Journal to make itself even more indispensable to its patrons, new and old, and to still further widen its field. To this end it will not only endeavor to maintain the characteristics which have established its reputation as by far the best newspaper in Indiana, but will add such new features and improvements from time to time as are in accord with journalistic progress and that may tend to the advantage of its readers. It will, for example, give increased attention to State and local interests. What Indianians want is a paper in which Indiana affairs are given especial prominence and importance. This want the Journal has always supplied as no other paper published outside or inside the State is able to do; but the rapidly developing industries and business and social enterprises of the community call for additional consideration and space, With this in view its corps of correspondents has been increased until it has a representative in nearly every town in the State. Special traveling correspondents will visit the news centers of the State at frequent intervals, thus insuring the "write up" of every important event or matter of general interest.

Being published in the geographical center of Indiana the Journal is afforded unusual facilities for securing news promptly, and, what is of greater consequence, is able to reach its subscribers without delay. The ruuning of morning trains from Indianapolis is very favorable to the early distribution of papers sent by mail or express, and in most towns within a radius of a hundred miles Journals are delivered as early as in the city where they are printed. In the more remote counties there is but little loss of time in trans-

The Journal is the paper for Indianians and particularly for Indiana Republicans. The change of administration involves the settlement of political problems likely to be of the most direct personal concern to every farmer and business man in the State. All such matters will be set forth in detail, the Journal's Washington correspondent being instructed to give especial attention to everything having a possible bearing on Indiana interests. But though the Journal is Republican in politics it is non-partisan in the publication of news. Its constantendeavor is to secure facts unbiased by prejudice and to make its columns trustworthy records of each day's happenings. A large editorial force supplements the work of the press associations and the

supervision for each department. The Sunday Journal has a well-established literary character, superior to that of any Western paper. It is not defaced by "plate matter" nor filled with a heterogeneous mass of syndicate literature, but its contributions and miscellany are chosen with a view to their special fitness and adaptability to the tastes of the readers. The reading matter in any given number of the Sunday Journal is equal in quantity and is not inferior in quality to that found in the leading magazines. As an educational adjunct and a source of entertainment the Sunday Journal is indispens-

correspondents, and furnishes careful

able in every well-regulated family. The Weekly Journal, at \$1 per year. contains more reading matter than can be obtained for the money in any other shape. It is carefully edited and offers the news of the week in condensed shape and a variety of miscellany, agricultural and household literature that render it one of the best investments that any family can make. Try it and see. It has a large circulation in this and other States and agents find it an easy matter to secure large lists of subscribers. Special inducements offered to agents. Circulars sent on appli-
